NGUYEN TAN DAT

QC/QA TESTER | 4 YEARS OF EXPERIENCE

Phone: +84 392 631 620 Email: datn0990@gmail.com Ho Chi Minh City, Vietnam

Linkedin: linkedin.com/in/dat-nguyen-tan-4203a7358

PROFESSIONAL SUMMARY

QC/QA Tester with 4 years of experience testing web, mobile, and PWA applications across distribution, e-commerce, warranty and repair, ticketing, and travel management systems. Skilled in test design, manual functional testing, API and integration testing, SQL data validation, regression testing, and performance testing. Experienced in validating end-to-end business workflows, third-party integrations, and managing project handover to end-users.

CORE SKILLS

Testing	Manual, Functional, Integration, Regression, Smoke, UAT, End-to-End, UI/UX
API & Database	Postman, Swagger, Apidog, SQL, PostgreSQL, MySQL
Performance	Apache JMeter, Chrome DevTools
Tools & Process	Redmine, Digiwork, Agile/Scrum, test documentation, defect tracking

PROFESSIONAL EXPERIENCE

QC/QA Tester – Công ty Cổ phần TechEra

Ho Chi Minh City, Vietnam | 2025 – Present

Mini DMS Ticket System Integration (Support For Ticket System)

- Tested integrations with Sun World and VinWonders to retrieve ticket inventory into TechEra Core Inventory via APIs.
- Validated ticket charging and transfer workflows from Core Inventory to Master Agent (MA) systems for multi-tier distribution.
- Configured and tested automated QR Code payment generation via SePay BankHub integration.
- Tested electronic invoicing integrations with MISA and Viettel systems.

Travel Management System

- Tested SKU management, pricing policies, physical inventory, and slot-limit/capacity management.
- Tested OTA/TA portals, OTA reconciliation, MISA/Viettel e-invoicing, and SePay BankHub integration.
- Tested integrated Gateway and Face Control flow: customers scan a QR code at initial entry to validate purchased services, then use facial recognition at subsequent gates for eligible services.
- Tested Staff POS and Auto POS workflows and cross-system consistency for access authorization and purchased services.

General Responsibilities

- Analyzed requirements, designed and executed test cases, and performed functional, integration, regression, and end-to-end testing.
- Reported, tracked, and retested defects; validated business rules, data consistency, and cross-system results.

QC Engineer / Manual Tester – DigiTech Solutions

Ho Chi Minh City, Vietnam | May 2023 – March 2025

DMS – Distribution Management System (Phase 1 & 2)

- Tested distributor, product, customer, inventory, pricing, promotion, sales order, return order, route, and beat-plan workflows.
- Validated mobile-to-web order synchronization, check-in/check-out, automated order status updates, KPI/incentive calculations, API integrations, and PostgreSQL data consistency.

PROFESSIONAL EXPERIENCE (CONTINUED)

DigiTech Solutions | Selected Projects

Feng Shui PWA & Mobile Application

- Tested astrology and life-path APIs, input rules (birth date, gender, lunar/solar selection), result rendering, and user history persistence across PWA and mobile.
- Validated coin recharge via bank transfer and VNPay, coin deduction during service use, referral campaigns, CMS reporting, and in-app notifications.
- Compared API responses with UI results, validated MySQL data, and performed performance testing with Apache JMeter.

E-commerce Platform

- Tested product browsing, user registration and OTP login, shopping cart, flash sales, combos, vouchers, checkout, order lifecycle, cancellation, and returns.
- Validated real-time product and inventory synchronization with KiotViet, including categories, variants, and stock quantities.
- Tested VNPay payment callbacks and failure handling, shipping integrations with GHN/GHTK/Ahamove, ZNS notifications, and invoice delivery by email.

IMAN Warranty & Repair Management

- Tested warranty activation via ZNS, product imports, repair and component workflows, technician mobile app, invoices, and role-based access.
- Validated API behavior and backend records using SQL queries.

KEY RESPONSIBILITIES

- Designed and executed test cases for web, mobile, and PWA applications based on functional requirements and user flows.
- Performed API testing using Postman, Swagger, and Apidog; validated backend data using PostgreSQL/MySQL.
- Reported, tracked, reproduced, and retested defects using Redmine and Digiwork.
- Conducted smoke, regression, and UAT support testing; collaborated with developers, BAs, POs, and project teams in Agile/Scrum.

EDUCATION, LANGUAGES & CERTIFICATION

Bachelor of Information Technology - HUFLIT 2019 – 2023

Languages: Vietnamese (Native); English (Intermediate reading and writing)
Certification: TOEIC Certificate, IIG Vietnam (2023)

TECHNICAL SUMMARY

Testing	Manual, Functional, Integration, Regression, Smoke, UAT, End-to-End
API & Data	Postman, Swagger, Apidog, SQL, PostgreSQL, MySQL
Performance & Tracking	Apache JMeter, Chrome DevTools, Redmine, Digiwork
Methodology	Agile/Scrum
Project Delivery & Support	Managed end-to-end UAT support, ensured smooth project transfer and handover to end-users.
Issue Handling & Solutions	Gathered client feedback, identified and raised critical system issues, and proposed optimal, system-compatible solutions to resolve operational issues efficiently.
